

oysk3 architects is looking for an experienced architectural project manager and an architect/associate architect team members.

Are you looking for a fun, flexible environment to grow as an architect? We are looking for a talented, good natured team member that is interested in expanding their skills and knowledge. The firm utilizes Sketch-up, AutoCad and Revit software to create architectural designs. Do you fit the profile of being proactive, with a good work ethic and want a long-term position with increasing responsibility in the architectural profession? If you do, we are interested in talking with you about this position.

Our firm has been in existence since 1995 and includes over 120 years of experience at the Principal position. Our project types cover a large range from Cabin/Houses to Retail/Offices to Hotels and Healthcare Facilities like Assisted-Living and Long-term Care and many others.

Requirements include a willingness to be part of a team, good communication skills, and interested in learning and growing in the architectural profession.

Please send us a cover letter and resume to:
